

## NEW OFFICE AND LABS

Our office has moved in the heart of Nantes.

- We are now located on the "Ile de Nantes", in a building previously devoted to ship building, and at the heart of a creative industries district.
- This new location allows us to face the growth of the company and provide an efficient space for our engineers' team.
- Our new laboratory is now fully operational for structure analysis of semiconductors.

## NEW OFFICE MANAGER

Your main contact in our office will now be Patricia Le Beguet.

- Christiane Berger is retiring after 10 years of hard work at System Plus. We thank her for her dedication and wish her a successful and long new chapter of her new life.
- Patricia Le Beguet will now assume the administrative tasks and customer relations.

## EXHIBITIONS & EVENTS

We will participate in more than 12 events in 2013.

During the first half of 2013, we will welcome you at:

- LED Korea – Seoul: January 30 to February 1<sup>st</sup>
- Semicon China – Shanghai: March 19 to 21
- PCIM Europe – Nuremberg: May 14 to 16
- Sensor - Nuremberg: May 14 to 16

Our 2-days workshop on MEMS and LED jointly held with Yole Development in Taiwan was very successful with more than 120 attendees. Similar events will be held in other countries this year.

## NEW COSTING TOOLS

A new tool for board and system cost evaluation will be released during Q1 2013.

- This new System Costing tool includes a BoM builder, a material price browser, a flow builder for assembly operations and a PCB costing tool.
- Outputs are fully customizable excel workbooks.

**Thank you for your support which is making all this possible!**

**We wish you a very happy and successful new year 2013!**
