Relative Humidity Sensors Technology and Cost Review

Humidity Sensors from the main players analyzed and compared!

Humidity sensors are integrated in many different consumer applications; in each of them different specifications are required. Moreover humidity sensors are integrated in environmental sensors for mobile applications; especially in harsh environment devices. An increase of humidity sensors market is forecasted during the next years.

In this report, humidity sensors from different suppliers and different generations are compared in term of technology choice, manufacturing process and cost.

Single-chip and multi-chip devices are compared between suppliers and references evolution.

Humidity Sensors ExampI

Size and technology is very different for every player. Nevertheless, the mainly used technology is the capacitive one. Moreover the majority of components are single-chip devices. Some devices, such as Bosch environmental sensor for example, are paving the way for the multichip integration.

The report includes a description of each humidity sensor device and a comprehensive supply chain evaluation. The cost of each device is estimated and compared.

Single-Chip
Players: Sensirion, SilLabs, Texas Instruments, Measurement Specialties

Multi-Chip
Players: ALPS, STMicroelectronics, Bosch

Companies analyzed in the report

Title: Humidity Sensors Review
Pages: 99
Date: February 2016
Format: pdf

PRICE:
Full report: EUR 4,490

COMPLETE REVIEW WITH:

- Humidity Sensors Market
- Supply Chain Evaluation
- Humidity Sensors Technologies
- Physical Analysis of 10 Leading Devices with Detailed Photos
- Complete Comparison of devices
- Manufacturing Cost Analysis

TABLE OF CONTENTS

Overview / Introduction

Humidity Sensors Market

- ✓ Humidity sensors Market Share
- ✓ Humidity Sensors Applications
- ✓ Humidity Sensors Selling Price (ASP)
- ✓ Humidity Sensors Supply Chain

Humidity Sensors Technologies

- ✓ Humidity sensors Comparison
- ✓ Humidity sensors Technologies
- ✓ Humidity sensors Technologies Principle
- ✓ Absolute Humidity Sensors
- ✓ Relative Humidity Sensors
 - ✓ Resistive
 - ✓ Capacitive

Technology & Cost Analysis Humidity Sensors

- Reverse Costing Methodology
- Analyzed Humidity Sensors References
- Humidity Sensors Cost Structure
- Humidity Sensors Categories
- Single-Chip Humidity Sensors
 - ✓ Single-Chip Humidity Sensors Comparison
 - ✓ Single-Chip Humidity Sensors Cost Structure
 - ✓ Sensirion SHT21, SHTC1, SHT31 Technology & Cost Analysis
 - ✓ SiLabs Si7021, Si7034 Technology & Cost Analysis
 - ✓ MEAS HMC5883 Technology & Cost Analysis
 - ✓ TI HDC100 Technology & Cost Analysis
- Multi-Chip Humidity Sensors
 - ✓ Multi-Chip Humidity Sensors Comparison
 - ✓ Multi-Chip Humidity Sensors Cost Structure
 - ✓ STMicroelectronics HTS221 Technology & Cost Analysis
 - ✓ Alps HSCAA006A Technology & Cost Analysis
 - ✓ Bosch BME280 Technology & Cost Analysis
 - ✓ TI HDC100 Technology & Cost Analysis
- Humidity Sensors Synthesis

Author:
Elena
BARBARINI

Elena is in charge of costing analyses for MEMS, IC and Power Semiconductors. She has a deep knowledge of Electronics R&D and Manufacturing environment. Elena holds a Master in Nanotechnologies and a PhD in Power Electronics.

Author (Lab):
Véronique
Le Troadec

Véronique is in charge of structure analysis of semi-conductors. She has a deep knowledge in chemical & physical technical analyses. She previously worked for 20 years in Atmel Nantes Laboratory.

ANALYSIS PERFORMED WITH OUR COSTING TOOLS MEMS COSIM+ AND IC PRICE+

	Process-Based Costing Tools	Parametric Costing Tools
Integrated Circuits		IC Price+
MEMS	MEMS CoSim+	MEMS Price+
Power Devices & Modules	Power CoSim+	Power Price+
LEDs	LED CoSim+	
Advanced Packaging	3D-Package CoSim+	
Electronic Boards Substrates		PCB Price+
Electronic Systems	SYScost+	
Displays		Display Price+

System Plus Consulting offers powerful costing tools to evaluate the production cost & selling price from **single chip to complex structures**.

MEMS Cosim+

is a process-based costing tool to design and evaluate the cost of any **MEMS** process flow.

IC Price+

performs the necessary cost simulation of any Integrated Circuit: **ASICs, microcontrollers, DSP, memories, smartpower...**

ANNUAL SUBSCRIPTION OFFER

Each year System Plus Consulting releases a comprehensive collection of new reverse engineering & costing analyses in various domains.

You can choose to buy over 12 months a set of 3, 4, 5, 7, 10 or 15 Reverse Costing® reports.

Up to 45% discount!

More than 40 reports released each year on the following topics (considered for 2016):

- MEMS & Sensors (20 reports):
 - Gyros/Accelerometers/IMU
 - Oscillators/RF switches
 - Pressure sensors/Microphones
- Power Electronics & Systems (10 reports):
 - GaN and SiC devices
 - Inverters & modules
- Imaging & LEDs (5 reports):
 - Camera modules
 - Infrared sensors & cameras
 - LEDs
- Advanced Packaging (5 reports):
 - WLP
 - TSV
 - Embedded Devices...

ABOUT SYSTEM PLUS CONSULTING

System Plus Consulting is specialized in the **cost analysis** of electronics from **semiconductor devices** to **electronic systems**. A complete range of services and costing tools to provide **in-depth production cost studies** and to estimate the **objective selling price** of a product is available.

Our services:

TECHNOLOGY ANALYSIS - COSTING SERVICES - COSTING TOOLS - TRAININGS

TERMS AND CONDITIONS OF SALES

1. INTRODUCTION

The present terms and conditions apply to the offers, sales and deliveries of services managed by System Plus Consulting except in the case of a particular written agreement.

Buyer must note that placing an order means an agreement without any restriction with these terms and conditions.

2. PRICES

Prices of the purchased services are those which are in force on the date the order is placed. Prices are in Euros and worked out without taxes. Consequently, the taxes and possible added costs agreed when the order is placed will be charged on these initial prices.

System Plus Consulting may change its prices whenever the company thinks it necessary. However, the company commits itself in invoicing at the prices in force on the date the order is placed.

3. REBATES and DISCOUNTS

The quoted prices already include the rebates and discounts that System Plus Consulting could have granted according to the number of orders placed by the Buyer, or other specific conditions. No discount is granted in case of early payment.

4. TERMS OF PAYMENT

System Plus Consulting delivered services are to be paid within 30 days end of month by bank transfer except in the case of a particular written agreement.

If the payment does not reach System Plus Consulting on the deadline, the Buyer has to pay System Plus Consulting a penalty for late payment the amount of which is three times the legal interest rate. The legal interest rate is the current one on the delivery date. This penalty is worked out on the unpaid invoice amount, starting from the invoice deadline. This penalty is sent without previous notice.

When payment terms are over 30 days end of month, the Buyer has to pay a deposit which amount is 10% of the total invoice amount when placing his order.

5. OWNERSHIP

System Plus Consulting remains sole owner of the delivered services until total payment of the invoice.

6. DELIVERIES

The delivery schedule on the purchase order is given for information only and cannot be strictly guaranteed. Consequently any reasonable delay in the delivery of services will not allow the buyer to claim for damages or to cancel the order.

7. ENTRUSTED GOODS SHIPMENT

The transport costs and risks are fully born by the Buyer. Should the customer wish to ensure the goods against lost or damage on the base of their real value, he must imperatively point it out to System Plus Consulting when the shipment takes place. Without any specific requirement, insurance terms for the return of goods will be the carrier current ones (reimbursement based on good weight instead of the real value).

8. FORCE MAJEURE

System Plus Consulting responsibility will not be involved in non execution or late delivery of one of its duties described in the current terms and conditions if these are the result of a force majeure case. Therefore, the force majeure includes all external event unpredictable and irresistible as defined by the article 1148 of the French Code Civil?

9. CONFIDENTIALITY

As a rule, all information handed by customers to system Plus Consulting are considered as strictly confidential.

A non-disclosure agreement can be signed on demand.

10. RESPONSABILITY LIMITATION

The Buyer is responsible for the use and interpretations he makes of the reports delivered by System Plus Consulting. Consequently, System Plus Consulting responsibility can in no case be called into question for any direct or indirect damage, financial or otherwise, that may result from the use of the results of our analysis or results obtained using one of our costing tools.

11. APPLICABLE LAW

Any dispute that may arise about the interpretation or execution of the current terms and conditions shall be resolved applying the French law.

If the dispute cannot be settled out-of-court, the competent Court will be the Tribunal de Commerce de Nantes.
