TSMC investment in Fan-Out Wafer Level Packaging (FO WLP) and development of Integrated Fan-Out (InFO) changed the WLP landscape. Following high volume adoption of InFO and further development of eWLB technology, a wave of new players and FO WLP technologies may enter the market. TSMC’s FO WLP solution called InFO will be used to package the Apple A10 application processor, implemented in the new iPhone 7 series. Production starts in 2016 and represents a big change in the Fan-Out industry for several reasons:

1. **First of all, in terms of volume, capturing the Apple processor market is a big asset for Fan-Out technology. iPhone 7 phones are expected to be sold in more than 200 million units.**

2. **In terms of technology capability it is also a major turn: processors require thousands of connections while the Fan-Out market was essentially focused on limited IO count applications so far.**

3. **Eventually, the potential for market spread is very high: the Apple brand brings more interest to the Fan-Out platform.**

2016 is a turning point for the Fan-Out market since Apple and TSMC changed the game and may create a trend of acceptance of Fan-Out packages. The market will actually be split in two types:

- The “core” market of Fan-Out, including single die applications such as baseband, power management, RF transceivers, etc. This is the main pool for FO WLP solutions and will keep growing.

- The “high-density” market of Fan-Out, started by Apple APE, that will include larger IO count applications such as processors, memories, etc. This market is more uncertain and will require new integration solutions and high performing Fan-Out packages but has a very high potential.

The report contains detailed analysis of the market development including several scenarios linked to respective applications and players.

With such a high potential for the high-density Fan-Out and solid growth of the core Fan-Out, the supply chain is also expected to evolve with a considerable amount of investment in Fan-Out packaging capabilities. Several players are already offering FO WLP while many others are developing their competitive Fan-Out platforms to enter the Fan-Out landscape and enlarge their portfolio.

Apart from TSMC, STATS ChipPAC is willing to make further investments powered by JCET, ASE extends its partnership with Deca Technologies while Amkor, SPIL and Powertech are in development phase eyeing future production. Samsung is seemingly lagging behind and is considering its options to raise competitiveness.
What are the next steps of the leading Fan-Out players? This report analyzes in detail the strategies and offers of main players involved and describes potential success scenarios for all of them. It also helps to define what is Fan-Out packaging and what are the different products and platforms, player per player, avoiding confusion already visible in the industry where many players call their solution a “Fan-Out” despite having significant differences from one to another (chip-first, chip-last, face-up, face-down, etc.).

**Fan-Out history: A long development and a recent hype**

![Fan-Out history chart](chart.png)

(Great Development, July 2016)

**GREAT POTENTIAL BRINGS A LARGE VARIETY OF TECHNOLOGIES. WHICH ONE WILL BE THE WINNING SOLUTION?**

This question is investigated deeply in this report. Primarily, mobile customers have high expectations of miniaturization and higher integration while keeping costs low. This leads naturally to WLP for cost and performance and System-in-Package (SiP) solutions for integration and functionality. FO WLP has proven its ability to reach these targets. Its small form-factor and low cost capabilities shown in the first wave of acceptance, referred to as the “core” market, are now enhanced with high-integration ability of the new Fan-Out architectures shown below. These architectures are expected to spread driven by the “High-Density” Fan-Out market. The main example available of wider integration being TSMC Fan-Out package-on-package (PoP) for Apple.

**Integration roadmap**

![Integration roadmap chart](chart.png)

(Great Development, July 2016)

**GREAT OPPORTUNITIES INDUCE TECHNICAL CHALLENGES**

Along with detailed roadmaps and supply chain analysis, this report explains the technical complexity, discusses the related technical trends already showing more potential and provides a manufacturing challenge analysis. Moreover, this report also includes information on how equipment and material providers address key technical challenges of Fan-Out packaging.

Today there is a sense of urgency in developing line widths/spaces down to 2/2 um and below, developing multiple RDL layers, integrating multiple dies and dealing with subsequent warpage and yield concerns. Different processing approaches attempt to implement best practices for known good die and known good RDL to increase overall yield. Other known challenges such as die shift have also not been fully resolved yet.
As package price represents the final verdict, carrier size evolution is an important topic, both for wafers and panels, since it can help to drastically reduce the cost. Above figure shows that the main trend is still to keep wafer carriers but some players are already investing and developing panel-based solutions. This report also focuses on the trends and challenges associated to carrier evolution.

COMPANIES CITED IN THE REPORT (non exhaustive list)
3D-Plus, Amkor, Analog Devices, Apple, ASE, ASM, Broadcom, Bosch, Datacon, Dialog Semiconductor, Dow, EVG Group, Freescale (NXP), Hi Silicon, Huawei, Ibiden, IME, Infineon, Intel, Mediatek, Medtronic, Nagase Chemtex, Nannium, Nepes, Nitto Denko, Nokia, NXP, Qualcomm, Samsung, SEMCO, Shinko Electric, SPIL, STATS ChipPAC (JCET), STMicroelectronics, SPTS (Orbotech), SUSS Microtec, TSMC, Toray Chemical, Towa, UTAC, and more…

TABLE OF CONTENTS (complete content on i-Micronews.com)
- Fan-Out commercialization status
- Type of products and markets of interest
- Corresponding product and type of Fan-Out to be used
- Industry information: Who sold what and where? / Manufacturing capabilities / Alliances
- Market shares
- Limitations and challenges
- Market forecasts (revenues, wafers, packages, per application, per product)
- Manufacturing
- Panels/substrates for Fan-Out status, cost comparison and forecast
- Summary of equipment and material challenges and solutions
Conclusions

ABOUT YOLE DEVELOPPEMENT

Founded in 1998, Yole Développement has grown to become a group of companies providing marketing, technology and strategy consulting, media in addition to corporate finance services. With a strong focus on emerging applications using silicon and/or micro manufacturing (technology or process), Yole Développement group has expanded to include more than 50 associates worldwide covering MEMS, Compound Semiconductors, LED, Image Sensors, Optoelectronics, Microfluidics & Medical, Photovoltaics, Advanced Packaging, Manufacturing, Nanomaterials and Power Electronics. The group supports industrial companies, investors and R&D organizations worldwide to help them understand markets and follow technology trends to develop their business.

CONSULTING

Definitions: “Acceptance” - Action by which the Buyer accepts the terms and conditions of sale in their entirety. It is done by signing the purchase order which mentions “I hereby accept Yole’s Terms and Conditions of Sale”.

“Buyer”: Any business user (i.e. any person acting in the course of its business activities, for its business needs) entering into the following general conditions to the exclusion of consumers acting in their personal or household interests.

“Contracting Parties” or “Parties”: The Seller on the one hand and the Buyer on the other hand.

“Intelectual Property Rights” (“IPR”) - means any rights protected by law, including without limitation, patents, trademarks, registered models, designs, copyrights, inventions, commercial secrets and know-how, technical information, company or trading names and any other intelectual property rights.

“Développement” is a market research and business development consultancy company, facilitating market access for advanced technology industrial projects. With more than 20 market analysts, Yole works worldwide with the key industrial companies, R&D institutes and investors to help them understand the markets and technology trends.

1. SCOPE

1.1 The Contracting Parties undertake to observe the following general conditions as agreed by the Buyer and the Seller. Any ADDITIONAL, DIFFERENT, OR CONFLICTING TERMS AND CONDITIONS IN ANY OTHER DOCUMENTS ISSUED BY THE SELLER AT ANY TIME ARE HEREBY OBJECTED TO BY THE SELLER, SHALL BE WHOLLY INAPPLICABLE TO ANY SALE MADE HEREREUNDER AND SHALL NOT BE BINDING IN ANY WAY ON THE SELLER.

1.2 The Seller reserves the right to make changes to these Conditions at any time, at the Seller’s own discretion.

1.3 Orders are deemed to be accepted only upon written acceptance by the Buyer.

2. PRODUCT AND ORDERING

2.1 Products: The Products are:

- delivered on a unit basis or as an annual subscription. The price for such an annual subscription, including all applicable taxes, may be reevaluated from time to time. The effective price is deemed to be one applicable at the time of the order.

- delivered either by email or to the Buyer’s address. In the absence of any confirmation in writing, orders shall be deemed to have been accepted.

2.2 Mailings:

- within 15 months from the order for Products already released or:
- within a reasonable time for Products ordered prior to their effective release. In this case, the Seller shall use its best endeavours to inform the Buyer of an indicative release date and the evolution of the work in progress.

2.3 In the event of a multi-site and multi-licensing arrangement the Seller can propose a pre-release discount to the Buyer.

2.4 The Seller shall by no means be responsible for any delay in receipt of article 2.2 above, and including incares where a new event or access to new contradictory information would require for the analyst extra time to compute or compare the request in order to enable the Seller to deliver a high quality Product.

2.5 The mailing of the Product will occur only upon payment by the Buyer in accordance with the conditions contained in article 3.

2.6 The mailing is operated through electronic means either by email or via secure password on the Seller’s website. If the Product’s electronic delivery format is defective, the Seller undertakes to replace it at no charge to the Buyer provided that it is informed of the defective functioning within 90 days from the date of the original download or receipt of the Product.

2.7 The Seller does not make any warranties, express or implied, including, without limitation, those of saleability and fitness for a particular purpose, with respect to the Products. Although the Seller shall take all reasonable precautions against contamination of viruses, worms, Trojan horses or other codes containing contaminating or destructive properties before mailing, the Seller cannot guarantee that any Product will be free from infection.

2.8 The Seller does not guarantee that the Product will be mailed in its entirety.

3. PRICE, INVOICING AND PAYMENT

3.1 Prices are given in the orders corresponding to each Product sold on a unit basis or corresponding to annual subscriptions. They are expressed in Euros and include all applicable taxes. The prices may be reevaluated from time to time. The effective price is deemed to be one applicable at the time of the order.

3.2 Yole may offer a pre release discount for the companies willing to acquire the Products that they have been registered or not and including any pending registration of one of the above mentioned rights.

3.3 Payments due by the Buyer shall be sent by cheque payable to Yole Développement, credit card or by electronic transfer to the following account:

- Account n°: 0170 200 1565 87
- BIC or SWIFT code: CCFRFRPP
- IBAN: FR76 3005 6001 7001 0254 397

To ensure payment, the Buyer shall indicate the order number, invoice number and the Product reference or title that the Buyer shall be entitled to request down payment to the exclusion of any further damages.

4. LIABILITIES

4.1 The Buyer or any other individual or legal person acting on its behalf, being a business user buying the Products for its business activities, shall be solely responsible for choosing the Products and for the use and interpretations he makes of the documents it purchases, of the results he obtains, and of the advice and acts it deduces thereof.

4.2 The Seller shall only be liable for (i) direct and (ii) foreseeable damages, the total amount of which shall be limited to the price of the Product or arising from a material breach of this agreement.

4.3 In no event shall the Seller be liable for:

- damages of any kind, including without limitation, incidental or consequential damages (including, but not limited to, damages for loss of profit, business interruption and loss of programs or data), or any failure or inability to use the Seller’s website or the Products, or any information provided on the website, or in the Products;
- any actual, consequential, punitive or special damages;
- damages related to any inaccuracies in the Product or interpretations thereof.

4.4 All the information contained in the Products has been obtained from sources believed to be reliable. The Seller does not warrant the accuracy, completeness adequacy or reliability of such information, which cannot be guaranteed to be free from errors.

4.5 All the Products that the Seller sells may, upon prior notice to the Buyer from time to time to be modified by or substituted with similar Products meeting the needs of the Buyer. This modification may lead to the loss of the lead customer allowed to the Seller provided that the Seller ensures the substituted Product is similar to the Product initially ordered.

4.6 In the case where, after inspection, it is acknowledged that the Product contains defects, the Buyer shall either return the defective products for a full refund, or the Seller undertakes to replace the defective products as far as the supplier allows and without indemnities or compensation of any kind for labor costs, delays, damages. The replacement is guaranteed for a maximum of two months starting from the delivery date. Any replacement is excluded for any event as set out in article 4.4.1.5.

4.7 The deadlines that the Seller is asked to state for the mailing of the Products are given for information only and are not guaranteed. The Seller shall not be liable for any delays or cancellation of the orders, except for non acceptable delays exceeding 4 months from the stated deadline, without information from the Seller. In such case only, the Buyer shall be entitled to ask for a reimbursement of its first down payment to the exclusion of any further damages.

4.8 The Seller does not make any warranties, express or implied, including, without limitation, those of saleability and fitness for a particular purpose, with respect to the Products. Although the Seller shall take all reasonable precautions against contamination of viruses, worms, Trojan horses or other codes containing contaminating or destructive properties before mailing, the Seller cannot guarantee that any Product will be free from infection.

5. FORCE MAJEURE

The Seller shall not be liable for any delay in performance directly or indirectly caused by acts of nature, force majeure, accident, war, government intervention, embargoes, strikes, labor difficulties, equipment failure, late deliveries by suppliers or other events which are beyond the control, and not the fault of the Seller.

6. PROTECTION OF THE SELLER’S IPR

6.1 All the IPR attached to the Products are and remain the property of the Seller.

6.2 The Buyer agrees not to disclose, copy, reproduce, redistribute, resell or publish the Product, or any part of it, to any other party other than employees of its company. The Buyer shall have the right to use the Products solely for its own internal information purposes. In particular, the Buyer shall therefore not use the Product for purposes such as:

- Information storage and retrieval systems;
- Recordings and re-transmitters over any network (including and especially networked computer systems);
- Use in any timesharing, service bureau, bulletin board or similar arrangement or public display;
- Printing any Product or any screen Product online service (including bulletin boards or the Internet);
- Licensing, leasing, selling, offering for sale or assigning the Product.

6.3 The Buyer shall be solely responsible towards the Seller of all infringements of this obligation, whether this infringement comes from its employees or from any other person or entity who has sent the Products and shall personally take care of any related proceedings, and the Buyer shall bear related financial consequences thereof.

6.4 The Buyer shall define within its company point of contact for the needs of the contract. This person will be the recipient of each new report in PDF format. This person shall also be responsible for respecting the terms of the agreement. The Seller is not responsible for ensuring that the Products are not disseminated out of the company.

6.5 In the context of annual subscriptions, the person of contact shall define who will be the person with all the access on line the reports on I-micronews.com. In this respect, the Seller will give the Buyer a maximum of 10 passwords, unless the multiple sites organization of the Buyer requires more passwords. The Seller reserves the right to check from time to time the correct use of this password.

6.6 In the event of a multi-site and multi-licensing arrangement only the employee of the Buyer can access the report or the employee of the companies in which the Buyer have 100% shares. As a matter of fact, the investor of a company, the joint venture done with a third party etc...cannot access the report and should pay a full license price.

7. TERMINATION

7.1 If the Buyer cancels the order in whole or in part or postpones the date of mailing, the Buyer shall indemnify the Seller for the entire costs that have been incurred as at the date of notification by the Buyer of such delay or cancellation. This may also apply for any other direct or indirect consequential damages, and the Buyer shall bear related financial consequences thereof.

7.2 In the event of breach by one Party under these conditions or the order, the non-breaching Party may send a notification to the other by recorded delivery letter upon which, after a period of 30 days following the sending of the problem, the non-breaching Party shall be entitled to terminate all the pending orders, without being liable for any compensation.

8. MISCELLANEOUS

8.1 All the provisions of these Terms and Conditions are for the benefit of the Seller and its subcontractors and agents. Each of them is entitled to assert and enforce those provisions against the Buyer.

8.2 Under these Terms and Conditions shall be given in writing, they shall be effective upon receipt by the other Party. The Seller may, from time to time, update these Terms and Conditions and the Buyer is bound to accept the latest version of these terms and conditions by proceeding to a communication thereof in due time.

9. GOVERNING LAW AND JURISDICTION

9.1 Any dispute arising out or related to these Terms and Conditions or to any contract entered into in connection with the application of these Terms and Conditions shall be settled by the French Commercial Courts of Lyon, which shall have exclusive jurisdiction upon such issues.

9.2 French law shall govern the relation between the Buyer and the Seller, in accordance with these Terms and Conditions.
